

The DF Dent Difference

- Focus on internal research enables independent thinking and conviction
- Disciplined approach seeks to identify exceptional growth companies
- Concentrated portfolio with a focus on “Best-in-Class” companies
- Low turnover, minimal transaction costs and long-term investment horizon results in tax efficient portfolios.
- Employee ownership and independence aligns our interests with clients
- Diversity of backgrounds and experience creates differences in opinion that help to evaluate investments from multiple perspectives of personnel

Annualized 10 Years	13.9	13.3	12.9	15.3

Investment results shown represent the DF Dent All Cap Growth Composite and have been examined by an outside third party. While there is no true All Cap Index, the Russell 3000 Growth Index is used by most institutions and consultants and the S&P 500 Index is used primarily for individual clients. As of 6/30/2018, we have chosen to show both benchmarks on our Composite Disclosure Reports. Past performance is not indicative of future results, and all investments carry the risk of loss of principal. Net performance results are presented net of actual management fees and reflect the reinvestment of dividends and other earnings. Index returns are provided for comparison purposes to represent the investment environment existing during the time periods shown. An index is fully invested, includes the reinvestment of dividends and capital gains, but does not include any transaction costs, management fees, or other costs. It is not possible to invest directly in an index. D.F. Dent's portfolios may hold securities that are not included in the index. Reference to an index does not imply that D.F. Dent portfolios will achieve returns or any other results like the index. For more information on D.F. Dent's fees and advisory business, please see our Form ADV Part 2A and Form CRS, which can be found on our website.
