## **Investment Approach**

Our long-term goal is to achieve above-market returns with a below-market risk profile. To do this, we conduct intense fundamental research to thoroughly understand the drivers of a company's performance, construct highly selective portfolios of companies meeting our core DF Dent criteria, and let their growth compound over time.

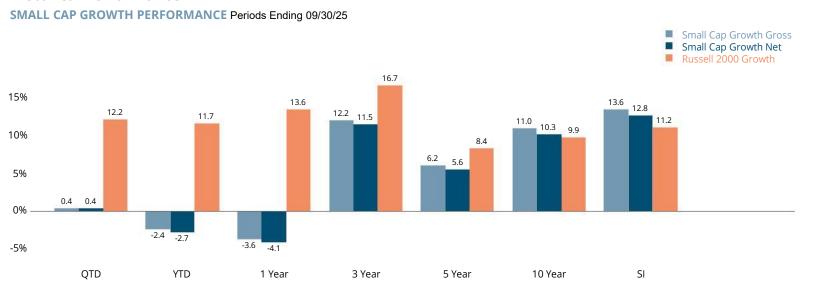

### Investment Criteria

**HIGH-QUALITY BUSINESSES** 

SUSTAINABLE GROWTH

TALENTED & ETHICAL MANAGEMENT

### Historical Performance

The investment results shown are that of the DF Dent Small Cap Growth Composite. Past performance is not indicative of future results, and all investments carry the risk of loss of principal. Net performance results reflect the deduction of actual investment management fees paid by clients and the reinvestment of dividends and other earnings.

#### **QUALITY GROWTH FOCUS**

We believe that quality growth investing delivers excess returns across market cycles.

#### **BOTTOM-UP RESEARCH**

We believe stock selection is highly correlated with growth in earnings per share.

### HIGH-CONVICTION PORTFOLIOS

We believe that real wealth is created by compounding long-term investments in best-inclass companies.
